

## Foreclosure Intervention

We are Here to Help!

Are you having trouble making your mortgage payment? Nothing is worse than doing nothing. Don't get caught up in a foreclosure rescue scam. Print and complete the English or Spanish information packet and contact our office at (239) 434-2397. If you need immediate assistance, you can complete this streamline application and email it to [patsy@collierhousing.com](mailto:patsy@collierhousing.com).

Here's how the program works: We don't hand out money to homeowners in crisis. Instead, we provide free evaluation and confidential counseling services to families at risk of foreclosure.

Our counselors specialize in getting in between the homeowner and the mortgage company. By that we mean we help mortgage companies understand homeowners and homeowners understand mortgage companies. We try very hard to help both parties find a new arrangement that will be a "win &ndash; win" for both. And we link homeowners with other organizations in the area that may be able to assist. While we will not be able to help every homeowner keep their house, we will do our best in every case to help them avoid the foreclosure. Homeowners must be willing to work with us every step of the way.

It's a perfect example of "helping people to help themselves."

If you would like to take the initiative to contact your servicer prior to an appointment with a counselor, please view our [Self-Help Page](#).
